

Get your company in **CRE sync**

Property Managers

- Manage your company more efficiently using a centralized networked database system
- Tasks never get missed using your personal dashboard notifying you of critical date obligations
- Communicate instantly - centralized login for owners & tenants
- Allow your owners & tenants to get all their information online with your integrated activity/document management system
- Gain a competitive edge with more transparent and accessible systems
- Allow tenants to create and review work order information online.

CRE Sync makes it easy to keep everyone on the same page: property managers, property owners, tenants and brokers.

Manage Your Company More Efficiently

- Using a centralized networked database solution
- Share information with key personnel
- Standardize repetitive processes
- Assign activities and be notified on completion

Retain & Acquire New Owners

- Easily collaborate property information with owners online
- Allow owners to download and review LOI's and investment documents
- Give your owners a real-time property snapshot - current tenants, rents, collections, work orders, etc.

Superior Tenant Communications, keep tenants happy

- Allow tenants to create/view work orders and statuses
- Tenants can retrieve critical documents online (signed leases, correspondence, etc.)
- Retain Tenants with a system that allows easy communications

Online Work Order Management System

- Allow tenants to create work orders 24/7, reduce phone calls
- Tenants can review work order updates
- Reduce your liability with documentation and history

Leasing Administration

- Personal dashboard informing you of leasing obligations
- Centralized document management (signed lease, loi, collections) for owner/tenant review
- Integrated application tying together brokers, property management, tenants and owners

Finally a system that allows property managers and brokers to share information
